Therefore, it is ordered that Dr. Herrington's pharmacist license, Ms. Teague's pharmacy technician's license and Mark's Pharmacy retail pharmacy license are to be placed on probation for a period of two years. The Board discussed legal procedures about cases remanded to the Board. Dr. Campbell also suggested to set aside 1 ½ hours at the next meeting for the hearing with **McQuay Sales Co., #LC00046**

Dr. Campbell discussed what the Board policy should be on Durable Medical Equipment Accreditation. He stated that in the year 2007, all DME's will need to be accredited in order to be reimbursed by Medicare. The point was brought up that many small pharmacies offering DME supplies will not pay the \$6,000 to become accredited. The Board asked for an exemption for pharmacies, but it was declined. The Board also considered becoming an accrediting agency, but came to the conclusion that the Board does not have enough staff or the computer capabilities to comply with the regulations.

Dr. Campbell discussed what the Board policy should be on complaints of the purchase of illegal drugs from Canada. The current policy is to call the newspapers that are running the ads and advising them that they are in violation of a federal law. The Homeland Appropriations Bill has stated that they cannot prevent the importation of a 90 day supply of medication. Dr. Campbell stated that the federal government is not going to enforce the law and the Board is left with no action to take. Dr. Norris recommended that any complaints be forwarded to the Consumer Complaints Division of the Attorney General's office.

Dr. Kirtley gave a report on the Chain of Responsibility for Pharmacist in Charge and other pharmacists. He and Dr. Dufour developed language that would change the regulations for PIC responsibilities depending on their computer system.

BOARD ACTION:

Dr. Norris made the motion to proceed with the proposed regulation changes for PIC requirements at the next meeting. Ms. Capps seconded the motion. The vote for the motion was unanimous.

Ms. Lincourt discussed the possibility of creating a distinct license for Wholesale Distributors of Medical Gas. She explained that currently there are a large number of businesses that distribute oxygen, which is a legend drug, to practitioners, ambulance servers and many other businesses. In order to do this, these businesses must hold a

Wholesale Distributor of Legend Drugs license. By holding this license, these businesses are authorized to order any legend drugs – not just oxygen. She explained that this license is too broad and regulation changes may need to be considered.

BOARD ACTION:

Dr. Dufour made the motion to proceed with the proposed regulation changes for the Wholesale Distributors of Medical Gas. Dr Newsome seconded the motion. The vote for the motion was unanimous.

He explained that there are many courses available on-line to renew CPR certification that are not backed by the American Heart Association. He asked if it was the intent of the Board to have a live component in the CPR renewal requirement.

Dr. Campbell suggested that the Board look at the entire regulation at another time, but to pursue these changes at the current time.

BOARD ACTION:

Ms. Capps made the motion that changes be made to the regulation for Immunizations to disallow on-line courses for CPR certification and that any course must be accredited by the American Heart Association and contain a live component.
