

The Arkansas State Board of Pharmacy has regulations and procedures in place to help expedite the applications of active duty military, military veterans, and military spouses in order to secure licensure in the state of Arkansas more quickly. Please contact the Board directly to learn more about the licensure process and the steps required to obtain a temporary license. The National Association of Boards of Pharmacy (NABP) also has discounted fees for licensure transfer for active military and spouses; find out more about this on NABP's website here: <https://nabp.pharmacy/e-profile/fags/#armed-forces-discount>

Please contact us if you have any questions. Thank you!
